

NResponse™ performs well on all crops. This premium nitrogen product provides more flexibility in application than other nitrogen fertilizers. Specifically formulated for effective foliar and soil applications, NResponse™ is quickly assimilated into the crop, providing a fast nitrogen response. It contains the same dynamic forms of nitrogen found in other AgroLiquid nitrogen products. NResponse™ has proven, in situations where a quick nitrogen response is needed, to improve yields and quality compared to conventional nitrogen sources.

Technical Data

DIRECTIONS FOR USE

NResponse™ can be used anywhere nitrogen is recommended. It is specially formulated to allow for foliar sprays and planter time applications.

NResponse™ can be applied:

- by planter placement in a band away from the seed (ex: 2" x 2")
- as a topdress or sidedress application
- as part of a foliar fertility program
- through fertigation

If applied with other crop production or protection products, please consult your AgroLiquid representative for the best application method.
